Create privacy with screens...

Enhance your workspace with our versatile modular screens, designed to create privacy in any office setting. Whether you need focused concentration zones or collaborative spaces for teamwork, our solutions easily adapt to your furniture and planning needs. Our screens not only provide comfort and quiet but also help reduce ambient noise and distractions, fostering a more productive environment. Transform your office into a harmonious blend of privacy and collaboration with our innovative designs.

Who we are

Panel UK is a proud British manufacturer in the North of England. Established in 1999, we have unrivalled experience within the global office furniture industry exporting to many countries. Where other companies import product we design, fabricate & assemble, by hand, each & every product to the highest of quality standards. Our in-house skills allow us the flexibility to offer a truly unique service, including bespoke products if needs be, suited to your project's precise needs.

What we do

Our guiding principles are to use recycled raw material, the least components & have a highly skilled workforce to create reusable & reconfigurable products of the highest quality, least impactful on the environment at an affordable cost. Our products are insightfully designed, & responsibly manufactured using lean methodologies to reduce waste. We are innovative where possible, with a specific emphasis on recycled content as well as the processes we operate, we are fully committed to a low carbon society.

Sustainability

The focus & drive of everything we do is to protect the environment through sustainable design & manufacturing, to create a better & more prosperous world to live in. We do this by designing products that last, using recyclable materials, with a local UK labour force. Our carbon footprint is small, we source components locally, where possible, & endeavour to minimise our impact on the environment.

Panel 100

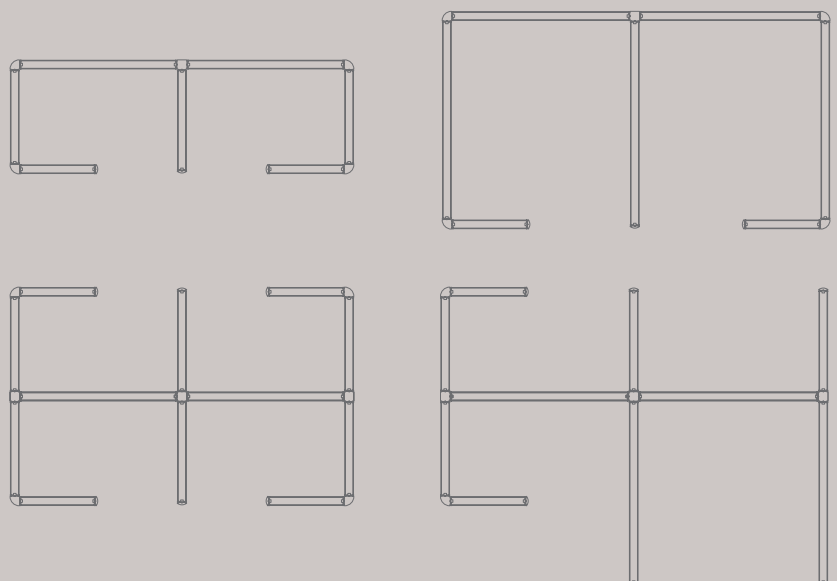

The P100 is a versatile wide screen system designed to create walls and space divisions for various work environments, facilitating focused work while reducing noise. In addition to wall structures, the P100 can be used as desk screens or booths. It features an integrated Slatwall, allowing users to attach accessories and power solutions directly to the screen, freeing up valuable desk space for personal items and optimising their work area. Transform your workspace with the P100's innovative design and functionality!

Specification

- 100mm thick
- Wall system using glazed, double glazed & fabric panels
- Modular panel system linked with 45° & 90° degree posts
- Rigid mechanical linking
- Standard widths of 800mm, 1000mm, 1200mm, 1400mm, 1600mm or 1800mm
- Modular panel heights available up to 2200mm
- Acoustic & Pinnable versions available
- Bespoke sizes and configurations are available - depending on core material and fabric limitations.

Shapes

P100 can come in a multitude of shapes, sizes & height as the inter-connecting panels are modular and then combined with the link posts P100 can basically make ANY size structure with fabric or glazed panels.

Organic

Organic screens feature a sleek, frameless design that can be personalized with a range of colours and shapes. Available as pinnable privacy screens (for above the work surface) or privacy/modesty screens (for both above and below the work surface), both options maintain a thin profile and a clean aesthetic. Our Fly-by Screens can be easily attached to tables, desks, or other work surfaces, providing visual privacy beneath the work area. Choose from various widths, colours, and shapes to create a customized solution that enhances your workspace while ensuring privacy and style.

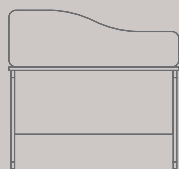

Specification

- 28mm thick
- 30mm bevelled radii to all corners
- Manufactured from solid core bonded material
- Desk-up, Fly-by & Floorstanding versions available
- Standard widths of 800mm, 1000mm, 1200mm, 1400mm, 1600mm or 1800mm
- Freestanding, on-desk option available
- Acoustic & Pinnable versions are available
- Brackets to fit most desk type are available, please contact us for details
- Upholstery bead outline in white, black & silver
- Bespoke sizes and configurations are available - depending on core material and fabric limitations.

Earth

In today's open plan offices, finding peace and productivity often means retreating behind a screen. The Earth screen system offers the perfect solution, creating a tranquil space for those moments when you need to gather your thoughts. With a full range of options—both desk-mounted and floor-standing—Earth transforms the open office into a more personal environment. By balancing openness with privacy, Earth screens provide an easy and attractive way to delineate individual work areas within a collaborative workspace, fostering focus while still encouraging teamwork.

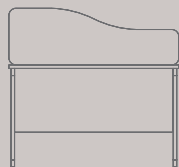

Specification

- 28mm wide
- 30mm radii to all corners
- Manufactured from solid core material
- Desk-up, Fly-by & Floorstanding versions available
- Standard widths of 800mm, 1000mm, 1200mm, 1400mm, 1600mm or 1800mm
- Edge trim comes in matching fabric as standard (contrasting fabric available upon request)
- Acoustic & Pinnable versions are available
- Brackets to fit most desk type are available, please contact us for details
- Bespoke sizes and configurations are available - depending on core material and fabric limitations.

90° Link

2-Way
90° Link

All of our system screens have the ability to link together to form shapes and structures from the various screen ranges.

The link posts create strength and stability on the systems and can allow space planners to create ANY environment that they require.

Contact us to discuss your screen needs.

NOTE: Panel is a UK based manufacturer, offering the flexibility to produce alternative sizes if required. Please call us to discuss your requirements further.

Fabrics

FABRIC

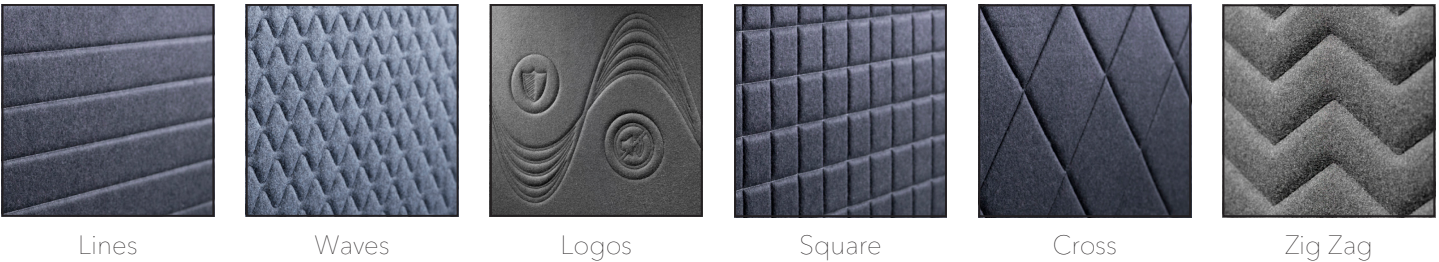

RE-SPUN by Inloom is created by recycling old garments which are collected from recycling bins and taken to the factories to be sorted into clothes which can be resold as pre-loved or cut into rags to start the production of creating recycled wool. The sustainability of the process is added to by the almost complete elimination of dyes because of the way the wool is recycled, helping to safeguard the planets natural resources.

NOTE: We partner with most major fabric manufacturers, the above is only a small selection. Please contact us to discuss your fabric requirements.

STITCH DETAIL

On the majority of our screen ranges we can add a stitch detail to the screen face in order to make the product unique to yourselves, we can even produce screens with company branded logos - please give us a call to discuss your requirements.
